More Info About Michele

I am an AHA Certified Instructor and specialize in providing AHA Certification classes in ACLS, PALS, and BLS. Visit my website at MicheleKunz.com to see more about me, my classes, my books, study guides, essays, and articles. Visit YouTube.com/MicheleKunz to see all of my free video lessons.

I have been a clinical nursing educator for over 30 years. During those years, I have helped many thousands of healthcare professionals improve their own job performance and increase their own job satisfaction. I consider myself to be a nurse's nurse, because I am not hidden away in a classroom or office, but out on the floor everyday – interacting with hospital management, the nurses, the patients, and the practitioners.

For many years I was the Director of Nursing Education and Informatics at Long Island College Hospital in Brooklyn, NY. I was in the LICH Nursing Education Department for 25 years. I developed the desire to teach nurses over 30 years ago when I was an ICU nurse at Staten Island University Hospital. It was at SIUH that I realized that I could learn how to be a better nurse by teaching the other nurses. I haven't stopped teaching since then.

I am now a Nursing Educator at Mercy Medical Center, in Rockville Centre, New York.

I am the Director of Education at Dickson Keanaghan, LLC, a company that I helped create, where we train and certify the medical staff at over 700 hospitals, medical offices, surgi-centers, military bases, walk-in medical offices, and major drug stores on Long Island, Westchester, and New York City.

If you would like to take one of my classes, or have me come to your office and train your staff, please call/text me on my cell phone at 516-578-5878.

A.H.A. Certification Classes ~ for ~ Healthcare Providers

- I will certify your entire medical staff

ADVANCED CARDIAC LIFE SUPPORT

Course Description:

The ACLS Certification Course provides the knowledge needed to evaluate and manage the first 10 minutes of an adult ventricular fibrillation and ventricular tachycardia arrest. Providers are expected to learn to manage 10 core cases: a respiratory emergency, cardiac arrest (simple VF/VT, complex VF/VT, PEA and asystole), four types of pre-arrest emergencies (bradycardia, stable tachycardia, unstable tachycardia and acute coronary syndromes), and stroke.

Testimonials:

"As the nurse manager of my unit, I feel that we must be the best we can be - for the sake of our patients and for our careers. I must tell you that taking the class with Michele carries weight in our medical community. Every nurse in my hospital knows about Michele and what a great teaching job she does. Michele is truly a nurse's nurse. I admire what she does, and how she does it. As a nurse manager I am very happy to know that Michele is training my nurses, and that she is just a phone call away."

-Note from a Nursing Manager at a very large hospital on Long Island, NY

"Thanks for sharing your thoughts, wisdom, and time. You make learning so easy and comfortable!"

-Ellen Beldy, RN,

St. Catherine Medical Center, Smithtown, NY

"I will call Michele and her team every time. They touch on every point. They are an organized and up-to-date team."

-Dr. Perry Gould,

Gastroenterology Associates, Garden City, NY

P.A.L.S.

PEDIATRIC ADVANCED LIFE SUPPORT

Course Description:

The PALS Certification Course provides the learner with the information needed to recognize infants and children at risk for cardiopulmonary arrest; information and strategies needed to prevent cardiopulmonary arrest in infants and children; and, the cognitive and psychomotor skills needed to resuscitate and stabilize infants and children in respiratory failure, shock, and cardiopulmonary arrest.

Testimonials:

"Michele's videos were awesome. My friends at Brookhaven Hospital told me about Michele's classes. The Zombie Notes were also awesome. They really helped me retain the information. The class was excellent and I learned a lot. The class is very concise and informative. Michele is a great instructor. Thank you Michele."

**-Ken Daniels, RN,
Jamaica Hospital, Queens, NY**

After Michele's class I feel more confident about the emergency code. I liked that I was able to learn in a relaxed atmosphere, and I wasn't afraid to ask questions and discuss."

**-Meghan Haggerty, RN,
NS-LIJ Medical Center, New Hyde Park, NY**

"I have already been to Michele's classes three times. The Zombie Notes are the best memorization guide available. Michele is also the best educator around, by far. We ask her to teach our office every time."

-Dr. Steven Macharola,

Island Eye Surgi-Center, Carle Place, NY

B.L.S.

BASIC LIFE SUPPORT

Course Description:

The BLS Healthcare Provider Certification Course teaches CPR skills for helping victims of all ages (including doing ventilation with a barrier device, a bag-mask device, and oxygen); use of an automated external defibrillator (AED); and relief of foreign-body airway obstruction. It's intended for participants who provide health care to patients in a wide variety of settings, including in-hospital and out-of-hospital.

Testimonials:

"Michele's program has an excellent presentation and an enjoyable format. Her program is interactive and an excellent discussion that can't be offered by a computer-based program."

**-Dr. Paul Epstein,
NAPA, NS-LIJ, Manhasset, NY**

"It is always a pleasure to listen and learn from Michele. I remember all the algorithms because of the tools we are taught in class by Michele."

-Susan Entenmann-DeMeo,

Winthrop University Hospital, Mineola, NY
